

# Cheney Ni

## Software Engineer

@ cheneyni@pm.me    🏠 cheneyni.dev    📧 cheneyni-451    📍 cheneyni    📍 Downingtown, PA

Software engineer with a few years of software development experience through internships, fulltime work, and personal projects. Proficient in TypeScript, Java, Python, with experience working with multi-layered and microservices architectures.

### Experience

#### Software Engineer Trainee

HTD Talent

📅 Mar 2025 – Jun 2025      📍 Remote

- Used 3-layer software architecture and Spring Boot to build full stack applications with MySQL database, Java backend, and HTML/CSS/JS frontend; and used MVC pattern to build Java application frontends.
- Developed a calorie tracking app as team of 4 for capstone project; implemented authentication and authorization using Spring Security framework with JWT, and data querying with Elasticsearch.

#### Software Development Engineer I

Amazon Web Services Inc. - Prelude

📅 Feb 2023 – Apr 2023      📍 Remote - New York, NY

- Improved user experience of internship project after receiving feedback after deployment.
- Enhanced development workflow by integrating code review status notifications into a Slack channel to increase visibility of new code reviews.
- Removed expired data in DynamoDB table through scripting, resulting in a table size reduction of over 90%, lowering operational costs.

#### Software Development Engineer Intern

Amazon Web Services Inc. - Prelude

📅 May 2022 – Aug 2022      📍 New York, NY

- Designed an implementation of a new digest email feature and reviewed it with entire team for feedback.
- Implemented redesign of a webpage using TypeScript React to enhance the customizability of the UX.
- Worked with an multiple AWS tools, such as Pinpoint to send email and SMS notifications to customers, and DynamoDB to store user data.

#### Software Development Intern

Red Rover - [Absence Management](#)

📅 Jun 2021 – Aug 2021      📍 Exton, PA

- Collaborated with senior developers and another intern to fix bugs in web application using TypeScript React.
- Communicated with the Sales team through daily Agile meetings to target and fix high priority bugs.

### Objective

Seeking to advance my skills as a software engineer and build more experience as a valuable team member

### Education

#### University of Michigan

2019 - 2022      Ann Arbor, US

B.S.E. in Computer Science

### Technical Expertise

TypeScript	<div></div>
React	<div></div>
Java	<div></div>
Python	<div></div>
C/C++	<div></div>
SQL	<div></div>
Git	<div></div>

### Skills/Exposure

• HTML/CSS • TypeScript • React • Python • Java • Git • AWS • Linux • Docker • MySQL • Svelte • Bootstrap • Spring Boot • Elasticsearch • JUnit

### Tools

• GitHub • Slack • Visual Studio Code • IntelliJ IDEA • Jira • Asana
